

Measles is about!

- Measles outbreaks have been reported in **Tonga**, **Samoa** and **New Zealand**.
- Symptoms include **fever**, **red eyes** and a **cough** followed a few days later by a **rash**.
- **Protect your family**. See a doctor to make sure your whole family is vaccinated.
- **Babies** can have the measles shot from 6 months if travelling overseas.
- **The measles shot is free!** Everyone born after 1965 should have two doses unless they have already had measles.
