

# Tips for safe environmental cleaning

For community and public use

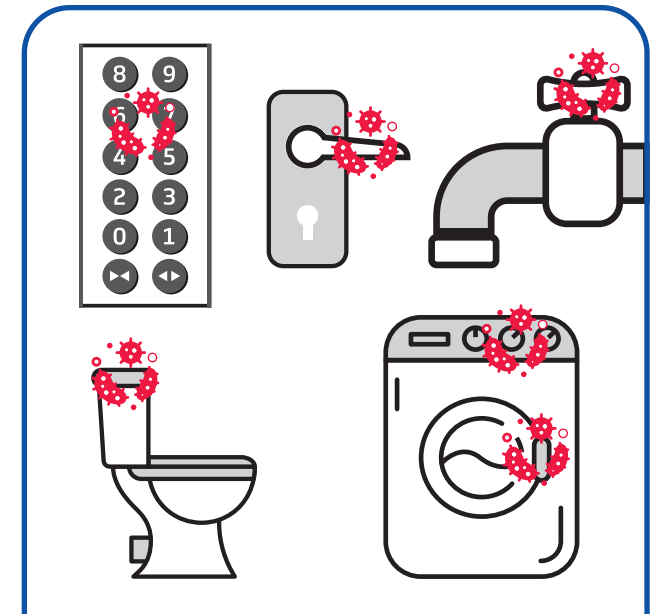

- Remember to clean with detergent before you disinfect
- Follow manufacturer instructions for use
- Reusable cleaning equipment must be cleaned after use
- Cleaning equipment must be stored clean and dry

Cleaning is using detergent and water to remove dirt

After cleaning, disinfect to kill germs, Try to use virucidal or antiviral cleaning products.

Communal high-touch surface areas may spread germs.

Further cleaning information can be found on the DHHS website Infection Prevention and Control <<https://www.dhhs.vic.gov.au/infection-prevention-control-resources-covid-19>>
