

# How to safely wear a single-use face shield

Perform hand hygiene **BEFORE** putting on a face shield and face mask

If you wear prescription glasses you can wear a face shield and face mask

A face shield must be worn with a face mask  
Ensure it covers your face correctly and securely

Don't wear a face shield on its own

Dispose of single-use face shields and masks into the appropriate waste bin

Perform hand hygiene **AFTER** removing face shield and face mask

Face shields are high-risk surfaces, which can become contaminated with coronavirus (COVID-19).  
Face shields help to protect against COVID-19 by protecting your eyes, nose and mouth from infection.
