1 Preamble
   (1) These directions replace the Victorian Border Crossing Permit Directions (No 28) and continue to provide a ‘traffic light’ border crossing scheme for persons seeking to enter Victoria from any other State or Territory in Australia or, after entering Australia from a Green Zone Country in order to limit the spread of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).
   (2) These directions must be read together with the Directions currently in force.

4A Definition of zones

(1) For the purposes of these directions:

(a) a **green zone** means an area in a State, Territory or Green Zone Country that is not an **extreme risk zone**, **red zone** or an **orange zone**; and

(b) an **orange zone** means an area in a State, Territory or Green Zone Country at any time after the **zone commencement time** for that area; and

(c) a **red zone** means an area in a State, a Territory or Green Zone Country at any time after the zone commencement time for that area; and

(d) an **extreme risk zone** means an area in a State, Territory or Green Zone Country at any time after the zone commencement time for that area.

(2) A **zone commencement time** is the time from which the Chief Health Officer has determined that an area is an orange zone, red zone or extreme risk zone as amended from time to time by the Chief Health Officer and detailed on the Department’s website available at www.coronavirus.vic.gov.au/victorian-border-crossing-permit.

Note: the zone commencement time is not the date of the announcement by the Chief Health Officer or the Department that an area has been designated as a green zone, orange zone, red zone or extreme risk zone.

(3) An extreme risk zone, red zone or orange zone ceases to be an extreme risk zone, red zone or orange zone (as applicable) at a time determined by the Chief Health Officer, and amended from time to time by the Chief Health Officer and detailed on the Department’s website available at www.coronavirus.vic.gov.au/victorian-border-crossing-permit.
5 Green zone permit

Eligibility

(1) Subject to the requirements in subclause (2), a restricted person may enter Victoria from any other State or Territory in Australia or, after entering Australia, from a Green Zone Country if the person, at the time they enter Victoria:

(ii) in hotel quarantine in any other State, Territory or Green Zone Country in the 14 days prior to the person's entry to Victoria; and

Note: if a person has completed hotel quarantine in a green zone in any other State, Territory or Green Zone Country and travels directly to Victoria, the person must hold a departing hotel quarantine permit for entry into Victoria. If they do not travel directly to Victoria within 24 hours after leaving hotel quarantine under clause 12(5)(a), they cannot enter Victoria from a green zone until 14 days after leaving hotel quarantine.

(b) either:

(i) has not been in an area that is an extreme risk zone, red zone or an orange zone in a State, Territory or Green Zone Country at any time after the relevant zone commencement time in the previous 14 days; or

Note 2: if a person has been in an area that is a green zone and one day prior to entering Victoria, the Chief Health Officer determines the area is an extreme risk zone, red zone or orange zone effective from a date 14 days prior to the announcement, the person cannot enter Victoria with a green zone permit.

Note 3: if a person leaves an area before the zone commencement time for an extreme risk zone, red zone or an orange zone and travels to Victoria, that person remains eligible for a green zone permit pursuant to subclause (2) (provided they have not been in any other area that is an extreme risk zone, red zone or orange zone 14 days prior to entry to Victoria).

(ii) has been in an area that is an extreme risk zone, red zone or an orange zone in a State, Territory or Green Zone Country at any time after the relevant zone commencement time in the previous 14 days only for the purpose of direct and short term transit
through an extreme risk zone, red zone or orange zone in a State, Territory or Green Zone Country to Victoria; and

(2) A person referred to in subclause (1)(b)(ii) is permitted to enter Victoria if in transiting to Victoria the person has complied with the **direct and short-term transit conditions**.

(3) Compliance with direct and short-term transit conditions while transiting through an area requires that, a person must, while in that area:

(b) whilst in direct and short term transit to Victoria through an extreme risk zone, red zone or orange zone:

(i) minimise contact with other persons (except in cases of emergency); and

      (A) meet all the eligibility requirements in subclause (1); and
      (B) have provided information in the permit that is true and correct; and

(D) subject to subclause (E), will comply with the conditions in subclause (4); and

(E) acknowledges that any zone in a State, Territory or Green Zone Country may change from time to time and the person may be required to comply with different conditions in these directions (as amended from time to time); and

**Obligations after entry**

(5) A person who enters Victoria under subclause (1), clause 6(6)(b) or clause 7(6)(b) must, during the green zone permit’s validity period in subclause (5)(a) (or, if clause 6(6)(b) or clause 7(6)(b) applies, the relevant validity period in clause 6(5)(a) or clause 7(5)(a)):

(a) carry, and present on request to an authorised officer, a Victoria Police member or a Protective Services Officer (or other person under such person’s direction):

(c) is revoked immediately if the person:

(i) enters an extreme risk zone, red zone or orange zone in a State, Territory or Green Zone Country after the delivery of the green zone permit; or
(ii) a determination is made by the Chief Health Officer prior to the person's first entry to Victoria that results in the person having been in an extreme risk zone, red zone or orange zone in a State, Territory or Green Zone Country after the relevant zone commencement time in the 14 days prior to the delivery of the green zone permit.

Note: a person who has entered Victoria with a valid green zone permit and remains in Victoria does not need to apply for nor produce a new green zone permit after the initial green zone permit’s validity period has expired.

Change to obligations after entry under green zone permit

(7) If a person has entered Victoria from any other State or Territory in Australia or, after entering Australia, from a Green Zone Country with a green zone permit and during the green zone permit validity period in subclause (5)(a), the Chief Health Officer determines that any relevant green zone is:

(a) an extreme risk zone or red zone and the person was in the extreme risk zone or red zone after the relevant zone commencement time, at a time within the 14 days prior to the person's entry to Victoria, then the higher, red zone obligations under clause 7(4)(b) – (n); or

(b) an orange zone and the person was in the orange zone after the relevant zone commencement time, at a time within the 14 days prior to the person's entry to Victoria, then the higher, orange zone obligations under clause 6(4)(b) – (g), will apply to that person from the time of notification by the Department for the remainder of the green zone permit validity period in subclause (5)(a).

Example: a person arrives in Victoria with a green zone permit which is valid for 14 days from their arrival date. Two days after entering Victoria, an area the person was in is determined to be a red zone and the person was in the red zone at a time after the relevant zone commencement time. The Department notifies the person that the green zone permit obligations which applied after entering Victoria have changed to align with the higher, red zone permit obligations in clause 7(4) for the remaining 12 days of the green zone permit’s validity period. This includes requirements for the person to self-quarantine for the remaining 12 days and get tested at certain times.

(b) either:

(i) has not been in an area that is an extreme risk zone or red zone in a State, Territory or Green Zone Country at any time after the relevant zone commencement time in the previous 14 days; or
Note 1: a person that is in an extreme risk zone or red zone some of the time during the 14 day period and in an orange zone or green zone at other times (including entering Victoria from an orange zone or green zone), will not be permitted to enter Victoria under this subclause.

Note 2: if a person has been in an area that is an orange zone and one day prior to entering Victoria, the Chief Health Officer determines the area is an extreme risk zone or red zone effective from a date 14 days prior to the announcement, the person cannot enter Victoria with an orange zone permit.

Note 3: if a person leaves an area before the zone commencement time for an extreme risk zone or red zone and travels to Victoria, that person remains eligible for an orange zone permit pursuant to subclause (2) (provided they have not been in any other area that is an extreme risk zone or red zone 14 days prior to entry to Victoria).

(ii) has been in an area that is an extreme risk zone or red zone in a State, Territory or Green Zone Country at any time after the relevant zone commencement time in the previous 14 days only for the purpose of direct and short term transit through the extreme risk zone or red zone in that State, Territory or Green Zone Country to Victoria; and

(a) carry, and present on request to an authorised officer, a Victoria Police member or a Protective Services Officer (or other person under such person’s direction):

(ii) an acceptable form of identification; and

(b) get tested for SARS-CoV-2 within 72 hours of:

Validity and revocation

(5) An orange zone permit:

(a) is valid for 14 days from the date the person enters Victoria (unless revoked earlier); and

(b) may only be used once by a person to enter Victoria during the validity period in subclause (a); and

(c) is revoked immediately if the person is outside Victoria and:

Note: a person who has entered Victoria with a valid orange zone permit and remains in Victoria does not need to apply for nor produce a new orange zone permit after the initial orange zone permit's validity period has expired.

Change to obligations after entry under orange zone permit

(6) If a person has entered Victoria from any other State or Territory in Australia or, after entering Australia, from a Green Zone Country with an orange zone permit and during the orange zone permit validity period in subclause 5(a), the Chief Health Officer determines that:

(a) any relevant orange zone is an extreme risk zone or red zone and the person was in the extreme risk zone or red zone after the relevant zone commencement time, at a time within the 14 days prior to the person's entry to Victoria, then the higher, red zone obligations under clause 7(4)(b) – (n) will apply to the person from the time of notification by the Department for the remainder of the orange zone permit validity period in subclause (5)(a); or

(b) all relevant orange zones are green zones and the person was in only those, or other, green zones after the relevant zone commencement time, at a time within the 14 days prior to the person's entry to Victoria, then the lesser, green zone obligations under clause 5(4)(b) – (c) will apply to the person from the time of notification by the Department for the remainder of the orange zone permit validity period in subclause (5)(a).

Example: a person arrives in Victoria with an orange zone permit which is valid for 14 days from their arrival date. Two days after entering Victoria, an area the person was in is determined to be a red zone and the person...
was in the red zone at a time after the relevant zone commencement time. The Department notifies the person that the orange zone permit obligations which applied after entering Victoria have changed to align with the higher, red zone permit obligations in clause 7(4) for the remaining 12 days of the orange zone permit’s validity period. This includes requirements for the person to continue or recommence self-quarantining for the remaining 12 days and get tested at certain times, including just prior to the end of the self-quarantine period.

(ii) an acceptable form of identification; and

(b) wear a face covering during each flight to Victoria unless, in accordance with the Directions currently in force, an exception from the requirement to wear a face covering applies to the person; and

(c) travel immediately and directly to, and self-quarantine at, the premises at which the person ordinarily resides or another premises that is suitable for the person to reside in for the purpose of self-quarantine for 14 days (subject to subclauses (g) and (h)(ii)); and

(d) reside at the premises described in subclause (c) and not leave the premises except:

(i) to obtain medical care or medical supplies; or

(ii) to get tested for SARS-CoV-2; or

(iii) in an emergency situation; or

(iv) if required to do so by law; or

(v) to leave Victoria,

during the period of self-quarantine under subclause (c); and

(e) get tested for SARS-CoV-2 within 72 hours of:

(i) the time the person enters Victoria; or

(ii) if clause 5(6)(a) or clause 8(9)(a) applies, the time of notification by the Department; or
(iii) if clause 6(6)(a) applies and the person has not been tested in accordance with clause 6(4)(b)(i) since entry to Victoria, the time the person enters Victoria; and

(f) get tested for SARS-CoV-2:

(i) on day 13 during the period of self-quarantine under subclause (c); or

(ii) if clause 5(6)(a), 6(6)(a) or 8(9)(a) applies, on or about the day before the period of self-quarantine under subclause (c) ends; and

(g) if, during the period of self-quarantine, the person refuses or otherwise fails to take a test for SARS-CoV-2 in accordance with subclause (f), the period of self-quarantine in subclause (c) (as extended under subclause (h)(i)) is extended for an additional period being the earlier of:

(i) an additional 14 days; or

(ii) until the person gets tested for SARS-CoV-2 and receives a negative test result; and

Note: any test undertaken in accordance with subclause (4)(e) will not satisfy the requirement in subclause (4)(g)(ii).

Note: persons entering Victoria with a red zone permit will be required to test for SARS-CoV-2 on or around day 13 of their self-quarantine (or the day before the end of self-quarantine), as testing at this time is likely to detect the presence of SARS-CoV-2, even if a person has not yet developed symptoms. As a person may be infectious for up to 14 days after the 14 day incubation period, if this test does not occur, an additional 14 days of quarantine is required to prevent a person who develops SARS-CoV-2 towards the end of the 14 day incubation period, even if not symptomatic, transmitting SARS-CoV-2 to the broader community.

(h) if, during the period of self-quarantine:

(i) the person is tested for SARS-CoV-2; and

(ii) subject to subclause (iii), the period for which the person is required to self-quarantine under subclause (c) expires during the period in which the person is awaiting the result of that test, the period of self-quarantine is extended until the person receives a negative SARS-CoV-2 test result; and

(iii) if the person receives a negative SARS-CoV-2 test result and:

(A) the period for which the person is required to self-quarantine under subclause (c) has not expired, the person must continue to self-quarantine under subclause (c) for the remainder of that period; or

(B) the period for which the person is required to self-quarantine under subclause (c) (as extended under either
or both of subclauses (g) and (h)(ii)) has expired, the person may cease self-quarantining immediately;

(i) provide documentary evidence that the person has been tested in accordance with subclauses (e) and (f) (including evidence of the person's most recent test) to an authorised officer, a Victoria Police member or a Protective Services Officer (or other person under such person's direction) when requested to do so; and

(j) minimise contact with other persons in Victoria (except in an emergency); and

(k) practise physical distancing; and

(l) wear a face covering in all public places unless, in accordance with the Directions currently in force, an exception from the requirement to wear a face covering applies to the person; and

(m) monitor for SARS-CoV-2 symptoms and, if experiencing SARS-CoV-2 symptoms:

(i) notify the Department; and

(ii) immediately get tested for SARS-CoV-2; and

(n) comply with all Directions currently in force.

Validity and revocation

(5) A red zone permit:

(a) is valid for 14 days from the date the person first enters Victoria (unless revoked earlier); and

(b) may only be used once by a person to enter Victoria during the validity period in subclause (a); and

(c) is revoked immediately if the person is outside Victoria and:

(i) has been at a very high risk exposure site in a State, Territory or Green Zone Country during the very high risk period:

(A) prior to delivery of the red zone permit; or

(B) after delivery of the red zone permit; or

(ii) enters an extreme risk zone in a State, Territory or Green Zone Country after the delivery of the red zone permit but prior to entry to Victoria; or

(iii) a determination is made by the Chief Health Officer prior to the person's first entry to Victoria that results in the person having been in an extreme risk zone in a State, Territory or Green Zone Country after the relevant zone commencement time in the 14 days prior to delivery of the red zone permit; or

(iv) is or becomes a diagnosed person or a close contact of a diagnosed person (or equivalent) in any State, Territory or Green Zone Country and/or required to self-isolate or self-quarantine (or equivalent) in any State, Territory or Green Zone Country:
(A) prior to delivery of the red zone permit; or
(B) after delivery of the red zone permit.

Note: a person who has entered Victoria with a valid red zone permit and remains in Victoria does not need to apply for nor produce a new red zone permit after the initial red zone permit’s validity period has expired.

Change to obligations after entry under red zone permit

(6) If a person has entered Victoria from any other State or Territory in Australia or, after entering Australia, from a Green Zone Country, with a red zone permit and during the red zone permit validity period in subclause (5)(a), the Chief Health Officer determines that:

(a) all relevant red zones and all relevant extreme risk zones are orange zones (or a combination of orange zones and green zones) and the person was in only those, or other, orange zones or green zones after the relevant zone commencement time, at a time within the 14 days prior to the person’s entry to Victoria, then the lesser, orange zone obligations under clause 6(4)(b) – (g) will apply to the person from the time of notification by the Department for the remainder of the red zone permit validity period in subclause (5)(a); or

(b) all relevant red zones and all relevant extreme risk zones are green zones and the person was in only those, or other, green zones after the relevant zone commencement time, at a time within the 14 days prior to the person’s entry to Victoria, then the lesser, green zone obligations under clause 5(4)(b) – (c) will apply to the person from the time of notification by the Department for the remainder of the red zone permit validity period in subclause (5)(a).

Example: a person arrives in Victoria with a red zone permit which is valid for 14 days from their arrival date. Two days after entering Victoria, all areas that the person was in are determined to be orange zones (or a combination of orange and green zones) and the person was in all of those orange zones or green zones at a time after the relevant zone commencement time. The Department notifies the person that the red zone permit obligations which applied after entering Victoria have changed to align with the lesser, orange zone permit obligations in clause 6(4) for the remaining 12 days of the red zone permit’s validity period. This includes requirements for the person to continue self-quarantining until they are tested for SARS-CoV-2 and receive a negative SARS-CoV-2 test result. If the person has already been tested for SARS-CoV-2 in accordance with subclauses (4)(e) or (f) and has received a negative SARS-CoV-2 test result, the person may cease self-quarantining immediately.

*Note: short term transit means a transit time of less than 24 hours. If a person spends more than 24 hours in any extreme risk zone or red zone, they will not be permitted to enter Victoria under this subclause.*
(4) A person referred to in subclause (3)(f)(ii) is permitted to enter Victoria if in transiting to Victoria the person has complied with the direct and short-term transit conditions.

(5) A person referred to in subclause (3) may only enter Victoria from a cross border extreme risk zone if:

(a) the person is:

(i) entering Victoria for one of the permitted reasons; or

(D) subject to sub-subclause (E), will comply with subclause (7); and

(E) acknowledges that any zone in a State, Territory or Green Zone Country may change from time to time and the person may be required to comply with different conditions in these directions (as amended from time to time); and

Cross border extreme risk zone permit – validity and revocation
(8) A cross border extreme risk zone permit:
   (a) is valid for 14 days from the date the person first enters Victoria (unless revoked earlier); and
   (b) may be used by a person to enter Victoria multiple times during the validity period in subclause (a); and
   (c) is revoked immediately if the person is outside Victoria and:
      (i) has been at a very high risk exposure site in a State, Territory or Green Zone Country during the very high risk period:
         (A) prior to delivery of the cross border extreme risk zone permit; or
         (B) after delivery of the cross border extreme risk zone permit; or

(9) If a person has entered Victoria from any other State or Territory in Australia or, after entering Australia, from a Green Zone Country, with a cross border extreme risk zone permit and during the cross border extreme risk zone permit validity period in subclause (8)(a), the Chief Health Officer determines that:

Example: a person arrives in Victoria with a cross border extreme risk zone permit which is valid for 14 days from their arrival date. Two days after entering Victoria, one of the green zones is determined to be an orange zone and the person was in that orange zone at a time after the relevant zone commencement time. The Department notifies the person that the cross border extreme risk zone permit obligations which applied after entering Victoria have changed to align with the higher, orange zone permit obligations in clause 6(4) for the remaining 12 days of the cross border extreme risk zone permit’s validity period. This includes requirements for the person to continue self-quarantining until they are tested for SARS-CoV-2 and receive a negative SARS-CoV-2 test result.

(A) 14 days; or

(B) until the person gets test for SARS-CoV-2 and receives a negative test result; and

Note: a test undertaken pursuant to subclause (5)(b)(i)(A) does not satisfy the requirement in subclause (5)(b)(v)(B).

Note: prohibited persons entering Victoria pursuant to subclause (2) will be required to test for SARS-CoV-2 on or around day 13 of their self-quarantine (or the day before the end of self-quarantine), as testing at this time is likely to detect the presence of SARS-CoV-2, even if a person has not yet developed symptoms. As a person may be infectious for up to 14 days after the 14 day incubation period, if this test does not occur, an additional 14 days of quarantine is required to prevent a person who develops SARS-CoV-2 towards the end of the 14 day incubation period, even if not symptomatic, transmitting SARS-CoV-2 to the broader community.

2. the period for which the person is required to self-quarantine under subclause (iii) (as extended under either or both of subclauses (v) and (vi)(A)) has expired, the person may cease self-quarantining immediately; and

(vii) if the person leaves the premises described in subclause (iii) in accordance with subclause (iv) during the period of self-quarantine under subclause (iii), wear a face covering in all:
(A) indoor public places; and
(B) outdoor public places; and
(C) vehicles, if the person is in a vehicle with any other person (unless the other person ordinarily resides with the person),
(D) unless, in accordance with the Directions currently in force, an exception from the requirement to wear a face covering applies to the person.
